

DIABLO™

Level 2 Limb Protection

Mitigate Fear. Prevent Injury.

D3O's dilatant materials are designed to absorb and dissipate energy in response to blunt force impact.

Crafted for devilish speed on two wheels.

Our lightest, most breathable limb protector ever. D3O® Diablo™ is engineered for subconscious advantage whilst riding. More comfortable than any other limb armor that surpasses CE Level 2 certification.

Product Features

- Lightest, most breathable D3O limb protector ever made
- 38.5% open surface area
- Ultra slim; only 9.5mm thick
- Made using soft, free-flowing IM material for unparalleled comfort and flexibility
- Pre-curved, precision fit
- Easy integration: shape matches LP range integrated garments
- Engineered to use less material, reducing environmental footprint
- Trusted, consistent performance across a wide range of temperatures
- Passes EN 1621-1 Level 2
- Type B coverage
- Compact E/K size available (Type A coverage)
